Multi-sourced pool, designed to provide clients with a solution for every campaign.

38 million records, 24 million households, ideal for the large mailer.

Over 300 individual selections can be made ensuring even the most targeted of campaign can be catered for.

Over 80 current syndicate members

Charity Connect File: 1,183,327    Legacy Donors: 210,752

The charity data held within the Gold File is based on actual / transactional data collected in conjunction with 20 charities. Charities have added their data to the pool in order to benefit from free data cleaning / bureau work and discounted data enhancement.

**Legacy Donors** – It has been possible to identify individuals who own their own home and are aged 70+ and are single or widowed. Share and home value are selectable and age can also be altered. All these selections have been overlaid with known charity donors from Charity Connect which is based on factual transactional data.

#### Charity Selections Available:

The data has been sub-divided into six key sectors as detailed below, however it is also possible to select on over 22 different charity causes.

It is possible to select the frequency of charity donation, charitable cause, as well as any of the 300 selection available through the Gold File.
